Statement from Dean Logan on Preliminary Review of U.S. Department of Justice Individual Records

LOS ANGELES – Los Angeles County Registrar-Recorder/County Clerk (RR/CC) Dean C. Logan today released the following statement sharing preliminary findings from the Department's review of individual records provided by the U.S. Department of Justice (DOJ).

"Los Angeles County has conducted a preliminary review of the records provided by the U.S. Department of Justice. Of the 20,930 records submitted, only 7,035 (33.6%) had addresses within Los Angeles County. In a preliminary sampling of 200 records, approximately 43% had canceled voter registrations, and more than 70% had no voting history.

These findings should not be mistaken for claims about citizenship. State and federal law are clear on the standards for evaluating voter eligibility. County election officials, operating under those legal standards, facilitate and protect voter access and participation. In California, a statewide system maintains voter registration information, and voter eligibility is verified through established state-level processes and interagency data matching.

Our office takes voter eligibility seriously, and any credible evidence of unlawful voting or attempts at disrupting elections warrants appropriate review. Claims of unlawful voting must be supported by verifiable evidence, not assumptions. Our responsibility is to uphold the law, protect eligible voters, and ensure public confidence is grounded in facts."

The mission of the Registrar-Recorder/County Clerk is to serve Los Angeles County by providing essential records management and election services in a fair, accessible, and transparent manner. For more information, visit LAVOTE.GOV and follow us on social media @LACountyRRCC.
